## BUILDING FUTURES

### NAC KIDS CAN ANNUAL REPORT 2014

### **BOARD** OF DIRECTORS

### **2014** - BUILDING FUTURES... ONE CHILD AT A TIME

Making that happen means evaluating the comprehensive needs of every family who walks through our doors: every family is different and each child is unique. That's why our team of social workers, medical and mental health clinicians and educational advocates work together to evaluate every aspect of a family's needs and then match our services accordingly. They ensure that each child gets an accurate assessment and the necessary medical attention, but also that parents have appropriate transportation to pick up a prescription, that there's food on the table and that the school classroom is prepared to support a child with a complex medical or mental health condition.

We're always thinking ahead to what's important next, and how we can build the foundation for NAC children to lead successful, independent futures.

The proof isn't this letter or in any statistic, it is our NAC kids themselves. It's Leo, who would have grown up in a hospital or foster care without NAC's intervention. Or Sara, who's now on her way to college with the help of NAC's Education Department. And Nina, whose doctors promised she would never walk and now, eight surgeries later, is walking to after-school activities and making friends on her own.

Today we're entering an exciting phase in NAC's growth to help build safe, healthy and successful futures for more Leos, Saras and Ninas. With the completion of our Comprehensive Healthcare Center, a new satellite office in the Bronx and the launch of a mobile medical clinic, we're strengthening our foundation and expanding our reach. And we couldn't continue without you. Thank you so much for your generosity and support of this critical and complex work.

Sincerely,

### IN MEMORY

THIS ANNUAL REPORT IS DEDICATED TO THE MEMORY OF FOUNDING BOARD MEMBER MARY WOLF AND LONG-TIME BOARD MEMBER AND TREASURER 

For 33 years, Mary's dedication to NAC never waivered Lou served on the Board for 16 years and never missed an opportunity to give back directly to our children and families. Thanks to the legacy he left, the **Lou Lipschitz** Scholarship Fund has been established to help NAC youth achieve their educational goals. Mary and Lou were an integral part of NAC's family and will be sorely missed.

It's tough to explain everything we do here at NAC. It doesn't fit into an easy sound bite because it isn't simple. It is easy to explain the "why." We're serving the most vulnerable children in New York City, who are not only medically fragile but also living in poverty and at-risk for abuse and neglect. But the "how" gets complicated, and that's because we provide no less than 52 services and programs to ensure these most-needy children can beat the odds and build healthy, stable and successful futures.

### OUR MISSION

### NEW ALTERNATIVES FOR CHILDREN (NAC) WAS FOUNDED ON THE BELIEF THAT ALL CHILDREN HAVE THE RIGHT TO BE NURTURED WITHIN A SAFE AND PERMANENT FAMILY.

NAC's mission is to provide innovative high quality services in support of birth, foster, and adoptive families caring primarily for medically fragile children, which includes children with severe physical disabilities, emotional and behavioral challenges, and developmental disabilities. NAC's services enable children to remain in or to be returned to their families whenever possible or to be adopted by loving families. Working with children whose birth families live in poverty, NAC's continuum of services ensures that children's physical, social, educational, recreational, medical, and mental healthcare needs are met.

By supporting families NAC prevents lengthy stays in foster care, hospitals, or other institutions. NAC builds on family strengths, provides opportunities, and assists all family members in reaching for and achieving their potential.

### **WHO** WE SERVE

NAC serves New York City's most vulnerable children - those who are living in poverty, have a profound disability, chronic illness or mental health diagnoses, and have experienced or are at risk of experiencing abuse and/or neglect.

NAC families face enormous challenges – intergenerational poverty, traumatic histories, mental illness, domestic violence and homelessness – while trying to care for a child, or many children, with serious medical and/or mental health needs. NAC confronts the great challenges that our families face with comprehensive support and services, providing families with hope and stability and children with an alternative to a life of institutionalization and public dependence.

#### **Diagnoses of NAC children include:**

- autism
- cerebral palsy
- spina bifida
- muscular dystrophy
- traumatic brain injury
- heart disease

### **BUILDING** SAFE FUTURES

### NAC'S FIRST GOAL IS TO SPARE CHILDREN WITH SIGNIFICANT DISABILITIES AND MEDICAL CONDITIONS

the disruption and trauma of being placed in foster care or hospitalized beyond medical need. Through NYC contracted **Special Medical Preventive Services**, we work with birth families where there are reports or risks of abuse or neglect in the home. Through intensive case management, clinical services and comprehensive family support, NAC helps to keep medically fragile children safe and families together, avoiding out-of-home placement.

LEO'S STORY

For most of his early life, 7-year-old Leo lived in a children's hospital; his family was in and out of shelters and not equipped to care for his cardiac condition. He went home for the first time in January of 2014, and NAC's Preventive Services Program was there to make sure he would be healthy and safe and prevent the need for him to return to the hospital. NAC's Social Workers and medical staff worked with Leo to ensure he and his family got the comprehensive care they needed, at the time when they needed it most. Today he has lots to smile about. Leo loves school, his medical condition is under control and with NAC's help, the family now has the basic necessities to maintain stability in their own home.

### **PREVENTION** WORKS

NAC has the LARGEST Preventive Services Program for medically fragile children in NYC – keeping 658 children safe from abuse and neglect in 2014

### 98.5%

in Preventive Services avoided foster care placement last year.

by preventing 647 medically fragile children from entering higher levels of care.

### **BUILDING** Secure futures

### WHEN A CHILD CANNOT REMAIN SAFELY AT HOME, NAC steps in with Foster Care & Adoption services tailored to meet

the extraordinary needs and challenges of medically fragile children, assuring that they are safe and living in homes that are nurturing and loving. NAC works with both birth families and foster parents concurrently to plan for reunification or adoption. As a result, our children spend less time in foster care and virtually never age out without a family to call their own. At NAC, we make sure there's a home – and a heart – for every child.

NAC is one of six original **Bridges to Health (B2H)** agencies in New York City to offer specialized "add-on" foster care services to ensure that the most challenging children in foster care avoid institutionalization and remain safely with their adoptive or birth families.

# MATTHEW'S

Matthew spent the first four years of his life in a hospital. His family visited him there every day, but with many other children at home and limited resources, they simply could not care for his severe medical needs. Wheelchair-bound and non-verbal, Matthew also has chronic lung disease and global development delays. NAC's Foster Care & Adoption program got involved and found him a loving foster family with Ms. Simpson. Under her care and with NAC's coordinated support services, he got better and better — his health improved, he left the hospital, and he blossomed in school. In November of 2014, Ms. Simpson adopted Matthew and formally made him part of her family, where he has developed close bonds with his new brothers and sisters. Today, when he's not in school or in physical therapy, Matthew is watching his idol, wrestler John Cena.

who came back into foster care after being adopted or reunified with birth families in Fiscal Year 2014.

### **BUILDING** Stable futures

### FAMTITES CARTING FOR CHTIDREN

At NAC that is called **Aftercare**. With as many as 56% of children in New York State returning to Preventive Services within a year of leaving the program and as many as 14% of children with disabilities returning to foster care after being adopted, the smallest crisis can put a family right back where they started. That is why NAC's services do not end when a family leaves the child welfare system.

The **Partners In Parenting (PIP)** aftercare prevention program and the **Post Legal Adoption Network (PLAN)** provide a continuum of care to ensure that families do not recidivate and that children remain safe and stable in the community. Beyond permanency, we help our children to achieve a lifetime of positive outcomes from meeting their educational goals to preventing medical or mental health crises and achieving independence.

NINA'S STORY

When she was born, doctors told Nina's parents that she would never walk. One of three triplets, she has spina bifida and rocker bottom feet, and was hardly speaking when she came to NAC at two years old. At the time, Nina's parents were overwhelmed and didn't know where to turn. Luckily, they were referred to NAC's **Partners In Parenting** program. Today, after eight surgeries on her feet and lots of intensive therapy, Nina is walking on her own. Because of the work NAC's social worker did with the family and efforts of our educational advocacy team, the family is thriving and Nina is excelling in school. She's moved from a wheelchair to a walker and is working on crutches next: she's asserting her new independence by getting involved in as many after school activities as possible, making new friends and says that she wants to be a teacher or a nurse when she grows up.

### **MAKING A DIFFERENCE** WITH AFTERCARE

### ZERO

### THE NUMBER OF ADOPTION DISSOLUTIONS

(when a child who has been adopted returns to foster care) among families served in PLAN.

### 960/0OF FAMILIES IN PIP

actively participated in NAC's medical, mental health, educational, vocational and/or parenting skills training programs.

### **BUILDING** SUCCESSFUL FUTURES

### WE DO EVERYTHING WE CAN TO HELP (HILDREN AND FAMILIES SUCCEED. NAC's Educational Services advocate for our children's needs and provide supports to assure that they stay in school and graduate. NAC teens prepare for adulthood with

College Bound and Vocational Services, Mentoring, Tutoring, and Recreational Groups that help them develop social and independent living skills. Art, Music and Drama programs allow for alternative and creative means of communicating and expressing feelings. Homelessness Prevention efforts assure that housing needs are met, while our Food, Clothing, and Toy Banks provide the essentials – and extras – families need for a decent quality of life. Best of all, our programs are located under one roof, so the services our families need are likely to be just down the hall.

# SARA'S

**Sara's family was moving from state to state,** trying to find a stable living situation and the right medical care for her younger brother, who has a rare genetic condition. Because Sara spent most of her time helping to care for her brother's medical needs and her siblings at home, she spent less time on her school work. When the family moved to New York and found NAC, they finally got the best medical care for their son and settled down. Which meant NAC's College Bound program could step in to help get Sara back on track at school. With greater stability and guidance, Sara worked hard to get her grades up and got involved in extracurricular activities from dance to volunteering. Today she's auditioning for a dance scholarship to Temple University and thinking about a career in nursing.

### **BUILDING** FOR THE FUTURE

### FOR THE PAST 33 YEARS, NAC HAS BEEN SUCCESSFUL because we developed our programs in response to the needs of our children and families. NAC continues to build for the future and ensure that every medically fragile child in need has the opportunity to succeed. 2014 was a busy year of expansion, raising awareness and making new NAC friends and supporters.

# **NAC'S** COMPREHENSIVE HEALTHCARE CENTER IS EXPANDING

Sydelle & David Aarons

NAC HAS BEGUN CONSTRUCTION on a 10,000 square foot floor at our main offices on West 26th Street that will soon be home to our new state-of-the-art Comprehensive Healthcare Center. A new Center means that NAC will have the capacity to offer expanded medical and mental health services to treat even more medically fragile children and their families. NAC was able to begin this project thanks to the generosity of the NAC Board of Directors and our many, many friends who supported the construction of the Center at the 2014 NAC Kids Can Gala.
